Business Continuity Plan Summary

Motley Fool Wealth Management developed a Disaster Recovery & Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us – If after a significant business disruption, you cannot contact us as you usually do through our customer portal at www.foolwealth.com, you should call our main number 844-408-4390. If you cannot access us and are trying to access your planning account, you should contact Interactive Brokers, your broker and the custodian of your account at www.interactivebrokers.com for instructions on how they may assist in providing you with: 1) prompt access to your funds and securities, 2) entering orders and processing other trade-related, cash and security transfer transactions.

Our Business Continuity Plan – We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data backup and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical locations of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

We back up our important records in a geographically separate area. In addition, Interactive Brokers, our clearing broker and the custodian for the funds and securities in your account also backs up important records in a geographically separate area. While every emergency poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by Interactive Brokers that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions and payments within 24-48 hours. Your orders and requests for funds and securities could be delayed during this period.

Varying Disruptions – Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within 24 hours. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area, and recover and resume business within 48-72 hours. In either situation, we plan to continue in business and notify you through our website at www.foolwealth.com or email of the status of the incident or you can contact us at our customer service number 844-408-4390 or 844-408-4391. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's prompt access to their funds and securities.
