

# Applying for the National Science Foundation's Graduate Research Fellowship Program WORKSHOP

The NSF GRFP is a fellowship program that directly supports students in various STEM fields including social science and STEM education. Each Fellowship provides 3-years of support during a 5-year fellowship period. For each of the 3 years of support, NSF provides a \$34,000 stipend and \$12,000 cost of education allowance to the graduate degree-granting institution of higher education for each Fellow who uses the support in a fellowship year.

This workshop is especially for seniors who are applying to graduate school next year. The workshop will provide an overview of the application process, tips for strengthening your application, and developing a timeline for productive writing and submission.

**The deadline for GRFP applications starts Oct 18<sup>th</sup>, so NOW is the time to get started!**
