

The Office of Undergraduate Research and RISE Program presents...

“The Pleasure of Finding Things Out: A Career in Science”

Dr. Hernan Garcia
Assistant Professor,
University of California at Berkeley

Join us for a virtual informal talk to discuss research career paths through science, graduate school and what you can do with a PhD. Find out what research is taking place at Berkeley and in Dr. Garcia’s research group. Ask questions about how to best navigate your own scientific career!

**OCT
22**
