

Applying for the National Science Foundation's
Graduate Research Fellowship Program
Information Session

The NSF GRFP is a fellowship program that directly supports students in various STEM fields including social science and STEM education. Each Fellowship provides 3-years of support during a 5-year fellowship period. For each of the 3 years of support, NSF provides a \$34,000 stipend and \$12,000 cost of education allowance to the graduate degree-granting institution of higher education for each Fellow who uses the support in a fellowship year.

This info session is especially for seniors who are applying to graduate school next year. An overview of the application process, tips for strengthening your application, and developing a timeline for productive writing and submission will be discussed.

Facilitated by Dr. Sarah Lacy,
OUR Interim Director

APR 28 | 10:30-11:30 AM | LSU Ballroom B

**GRFP application deadlines starts in October
so NOW is the time to get started!**
