

Study marine science this summer on an *Island Campus!*

Undergraduate Courses

Gain hands-on field experience during 1-week and 2-week courses at the Shoals Marine Laboratory!

- Marine Ecology
- Evolution & Biodiversity
- Sustainable Fisheries
- Marine Mammal Biology
- Field Ornithology
- Animal Behavior
- Science Communication
- Underwater Research
- Coastal Habitats
- *Online classes available*

Register for 4 courses in one summer and join the **Shoals Semester Program**, a full semester of credits!

Shoals Research Apprenticeship

Combine SML's Investigative Marine Biology Laboratory course with a 2-week independent study to conduct your own research project under faculty mentorship. Build your resume for future research internships.

Scholarships Available

Need-based, diversity, and merit-based scholarships are available for undergraduate students who apply!

Research Internships

Apply for paid research internships at SML. Live and work on the island for 2-10 weeks with mentoring from faculty and scientists. Join an active community of researchers!
