**The Course Numbering System**  
**[Supersedes PM 78-26]**

---

There is a current effort being made in the CSU system to develop a consistent numbering system for all continuing education activities. Consonant with this effort we are revising the designations for 800 and 900 level courses as follows:

800-899      Non-academic extension level credit for professional advancement

900-999      Non-credit Continuing Education Units (CEUs). A nationally recognized measure  
                    of attendance at professional training programs

Non-credit      General interest courses that carry no credit on transcript
