

Census Round 2010

Progression of Population Censuses and the size of the enumerated population.

The following tables summarize the census activities for the census round 2010. Countries are listed according to the date the census was conducted or is scheduled. Countries which base their detailed population statistics on continuous population registers are listed with the reference date for the population statistics provided by the respective national statistics office.

Only population censuses are considered (no housing-only censuses) and ONLY THE FIRST census of a country in this round (some countries conduct more than one census per decade).

Explanation Columns:

- (A) Countries and areas are sorted in the order of the date of the census
- (B) Census dates are given as listed on the PHC2010 homepage as exact date or as range. If the listed census date is stated as year or month (e.g. 2005 or Oct 2005) the date is given as range corresponding to this data (e.g. 1 Jan to 31 Dec 2005 or 1 Oct 2005 to 31 Oct 2005)
- (C) Census status: T - taken; S - scheduled, not yet taken or not known if taken; N - Not scheduled
- (D) UN membership status as of 1 January 2012 (<http://www.un.org/en/members/index.shtml>)
- (E) Membership status in UN Regional Commissions (ECA, ECE, ECLAC, ESCAP, ESCWA) as of 1 January 2012
- (F) Membership status in other regional organizations (CARICOM [Caribbean Community], CIS [Commonwealth of Independent States], GCC [Gulf Cooperation Council]) as of 1 January 2012
- (G) Estimated population for 2010 (based on UN World Population Prospects, 2010 Revision)
- (H) Estimated population enumerated worldwide since start of 2010 census round (1 Jan 2005) up to the respective date divided by estimated world population in 2010 multiplied by 100 (calculations based on population numbers for 2010 according to UN World Population Prospects, 2010 Revision)

Estimated Total World Population in 2010 (in thousand): 6,895,889

Footnotes:

- 3 Population figures compiled from administrative registers.
- 5 The population by-censuses for 1986 and 1996 were based on one-in-seven sample of the population, while that for 2006 was based on one-in-ten sample of the population.
- 15 Rolling Census based on continuous sample survey.
- 16 Census - using staggered enumeration and based on the 100% sample Socio-Demographic and Economic Survey (SDES) - was planned to be held province by province in the period 2011-2014. The first province - Bamyan - was enumerated in October 2011.
- 17 Traditional decennial census with full field enumeration, and a continuous sample survey.
- 19 Census was suspended on 10 October 2010 after start of data collection exercise.
- 98 Population size in 2005: 65 persons.
- 99 Census undertaken before independence from Sudan.
