I thank you too for your good wishes & kind words. Incidentally we share your high opinion of Dr. Ruge.

Again thanks. Sincerely RR

To Chip Riegel Box 1 - Montclair Del. 19710

Dear Chip

Thank you very much for your card and for your good wishes. You are absolutely right, jelly beans aren't enough, we need friends. I'm glad you are my friend.

Best Regards
RR

April 6, 1981

Dear President Reagan;

I hope you are feeling much better now.

Enclosed are two key chains, one for you & one for Mrs. Reagan. I hope you both like them.

I have a collection of five hundred to one thousand different kinds from all over the world.

Sincerely Bradford Ruklin
245 Bridge Lane ^{Tower} Lakes
Barrington, Illinois
60010

P.S. You are under the care of one of the all time greats. When Dr. Ruge was in Chicago he performed about 14 neuro surgeries on me, so please say hello to him for me. Thank-you very much, Sincerely Bradford Ruklin

Dear Barnaby:

I was delighted to receive your unique gift - Goldfish and kind note. "Ronald Reagan II" will be a special reminder of a thoughtful young friend from Loudonville. He survived his long trip through the mail very well, and was waiting for me when I got home from the hospital. He is now living in a big fish tank and seems very happy. I will take good care of him and look forward to his companionship. Thank you for caring about me in such a nice way.

Sincerely,

RONALD REAGAN A

President May Leave Hospital on Weekend

PRESIDENT, From A1

roles, and should return some responsibilities to local and state governments.

Laxalt defended makeup of the commission, which is heavily Republican and does not include many representatives from the Northeast. "I think it's appropriately weighted," Laxalt said. After all, he added, the Republicans did win the election Nov. 4.

He said the commission would try to complete work by the end of 1982 and would use staff from the White House and Capitol Hill, but would not create a bureaucracy of its own.

Laxalt, who visited Reagan for about 15 minutes yesterday, said the president did not express worry about the fate of his economic package in the House. "I rather think that the bulk of his package will be approved by the House," Laxalt predicted.

Reagan also signed a proclamation in his hospital room making April 19 the beginning of Victims Rights Week.

"Only victims truly know the trauma crime can produce. They have lived it and will not soon forget it," the president, who was so recently the target of an assassination attempt, said.

White House press secretary James S. Brady was reported making satisfactory progress yesterday recovering from the bullet that entered his brain. A scan found "no evidence of complications," a medical report issued by the White House press office said. Brady napped much of Tuesday, but sat up in a chair for dinner, it added.

One goldfish, a 55-pound glass pig filled with jelly beans, assorted other packages of the president's favorite candy and 74,600 letters, telegrams and get well cards have been received at the White House since Reagan was wounded, deputy press secretary Karna Small said.

The goldfish arrived in a water-

filled plastic bag inside a box, and was sent by a 10-year-old boy who lives in Albany, N.Y., Small said. "I hope you get better and to help you get better here is a companion, a goldfish named Ronald Reagan II," Barnaby Dexter Bullard wrote the president.

He added a request: "If he dies, call this number" — and he wrote his telephone number. The goldfish is swimming in a glass jar that formerly held jelly beans.

Reagan was visited by his wife, Nancy, son Michael and former Texas governor John B. Connally. Mrs. Reagan brought a large box of chocolates sent by the king of Morocco and a framed picture of Bob Hope, a friend of the Reagans, dressed in an Easter bunny suit.

Reagan Backed On Salvador Aid

Reuter

A House subcommittee yesterday upheld the administration's Latin American policy by rejecting efforts to cut off military aid to El Salvador and to retain a ban on military aid to Argentina.

The Foreign Affairs subcommittee voted 4 to 4 in failing to approve an amendment to a 1982 Latin American aid bill that would have eliminated \$25 million in military aid to El Salvador.

By the same vote it also rejected amendments that would have attached conditions to continued military aid and required that the 56 U.S. military advisers in El Salvador be withdrawn.

The subcommittee defeated, 5 to 3, an amendment that would have continued a ban on military aid to Argentina for an additional year. The administration has asked Congress to repeal the ban, imposed because of human-rights violations.

President May Leave Hospital This Weekend

By Lee Lescaze
Washington Post Staff Writer

President Reagan may leave the hospital for the White House this weekend, Dr. Dennis O'Leary of George Washington University Hospital said yesterday.

The president had a fever Tuesday night, the White House press office reported, but his temperature was close to normal yesterday and chest X-rays show "significant clearing" of the dried blood and damaged tissue in his left lung, struck by a .22-cal. bullet in an assassination attempt March 30.

The debris in Reagan's lung is now "barely perceptible," the report added.

Reagan also was reported walking with increasing vigor, and holding animated conversations with his doctors and visitors.

White House sources said a decision will be made soon on whether Reagan will make a previously scheduled trip to Mexico and California beginning April 23. They said the president has told his daughter Maureen that he will be in Los Angeles for her April 24 wedding and that he wants badly to make the trip.

Reagan signed an executive order yesterday establishing the Presidential Federalism Advisory Committee to study relationships between local, state and federal government.

"Unfortunately, our decentralized system of government has over the years been bent out of shape," Reagan said in a statement released by the White House.

The president's close friend, Sen. Paul Laxalt (R-Nev.), will chair the commission. "Of course, this is a matter Ronald Reagan and Paul Laxalt have discussed, lo, these many years," Laxalt told reporters. He shares Reagan's conviction that the federal government has taken over too many

To go w/ Korean
gifts

The Korean white porcelain, simple and natural in design and the art of which has been succeeded since 15 century (Yi-dynasty period), has deep and transparent whiteness which reveals a warm heart and pure spirit of the Korean people.

This porcelain was created in an inherited quality by Mr. Shin Sang-ho, a leading Korean ceramist, and painted by a prominent painter, Mr. Chang, Woo-soung.

EMBASSY OF THE REPUBLIC OF KOREA
WASHINGTON, D. C.

CABLEGRAM

"H.E. RONALD W. REAGAN,
PRESIDENT OF THE UNITED STATES OF AMERICA
THE WHITE HOUSE
WASHINGTON, D.C.

AS YOU OBSERVE YOUR BIRTH ANNIVERSARY TODAY, MRS. CHUN
AND I WISH TO EXTEND OUR HEARTFELT CONGRATULATIONS AND
HOPE FOR YOUR CONTINUED GOOD HEALTH AND HAPPINESS IN
MANY YEARS TO COME. WITH MY KINDEST PERSONAL REGARDS,

CHUN DOO HWAN,
PRESIDENT OF THE REPUBLIC OF KOREA
HONOLULU, FEBRUARY 6, 1981"

1. Gift to President Ronald W. Reagan: Korean White Porcelain

This is a reproduction of Yi Dynasty white porcelain which is originated in 15th century.

The design is simple and natural and it has deep, transparent whiteness which reveals warm heart and pure spirit of the Korean people.

This flower vase was created by Mr. Shin, Sang-ho, a renowned contemporary Korean ceramist, and an orchid painting and Chinese characters meaning "Source of Fragrance" were done by a prominent artist Mr. Chang, Woo-soung.

The vase has no commercial value as it was personalized by an inscription written in Korean by President Chun himself, which reads:

"To His Excellency President Ronald Reagan
From President of the Republic of Korea Chun Doo Hwan
February 2, 1981"

2. Gift to Mrs. Nancy Reagan: Embroidered Korean Gown

This is a lady's gown hand-made by one of Mrs. Chun's personal friends especially for Mrs. Reagan to be presented on the occasion of President and Mrs. Chun's visit to the United States, and commercial value cannot be assessed.

3. ^{Inscribed} Autographed Photograph of the President and Mrs. Chun

4. ^{three} Four Copies of a Collection of Postage Stamps Commemorating Inauguration of the 11th President of Korea, H.E. Chun Doo Hwan, September 1980

Dear Sir:

As life-long residents of the Fourth Congressional District, we appeal to your office for assistance. The enclosed brochure will show that we, located in Chicago's south suburbs, are the makers of a unique line of furniture. In recognizing President Reagan's broadcasting days with the Cubs and his being an ardent Cubs fan, we would like to present him with one of our custom-made furniture pieces featuring the All Time Cubs Greats.

We don't know, however, the way to properly go about contacting the President for such a presentation. Mr. Derwinski, whatever assistance or suggestions you could provide us with would be greatly appreciated.

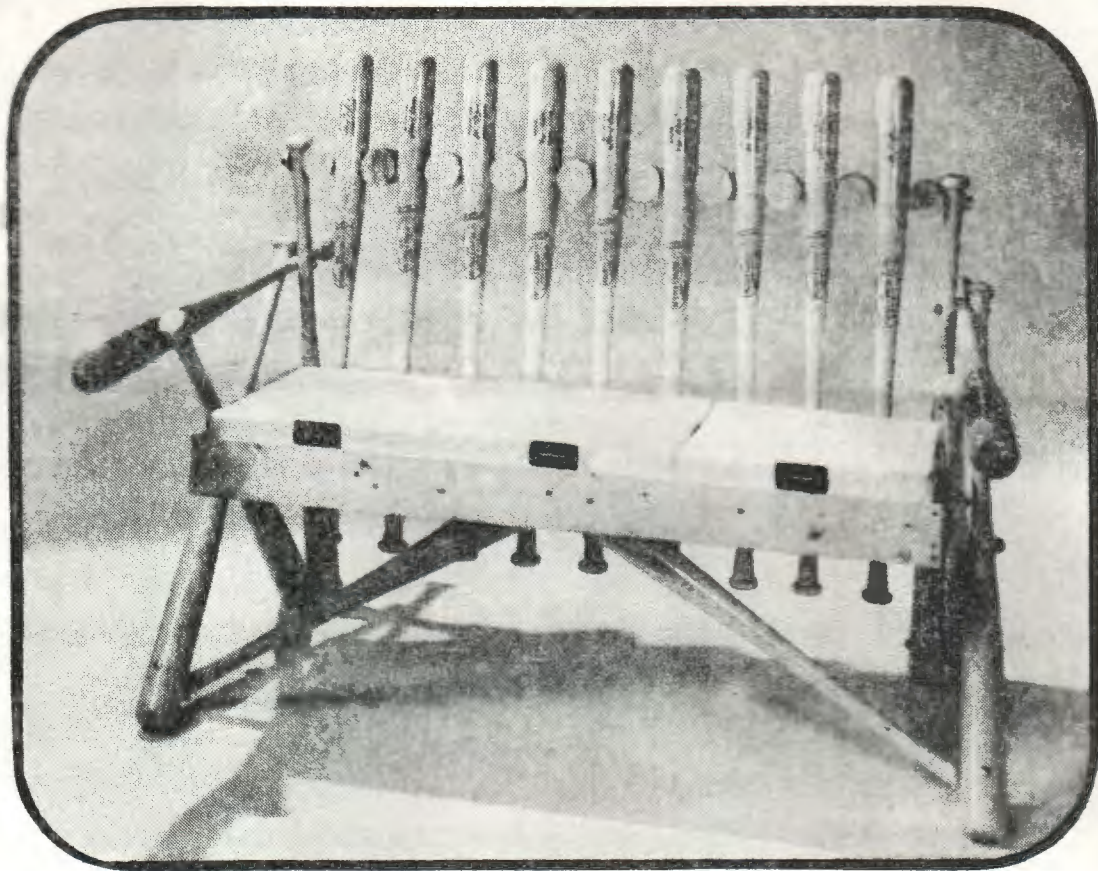

Thank you for your consideration,

Sincerely,

Kevin G. Kaelin
Kevin G. Kaelin

MEMORANDUM

THE WHITE HOUSE
WASHINGTON

June 10, 1981

WS

057491
4200
GI002
WH002-01
WH002-02
BE003
FONTAINE, MICHAEL

MEMORANDUM FOR THE RECORD

RE: GIFT OF LIFECYCLE AEROBIC TRAINERS

Due to some confusion regarding the acknowledgment of these machines, the June 10 letter was prepared before it was discovered that a May 22 Presidential thank you had been sent. Consequently, the June 10 letter was not sent.

Other facts relevant to this gift:

The April 27 Fontaine reference to a Presidential request for a LAT may refer to a telephone conversation between Mary Power of the Gift Unit and Ed Shaw.

The May 22 Presidential thank you letter and the May 28 Ed Shaw letter probably crossed in the mail.

The February 4 Deaver letter to Shaw makes reference to Mr. Wilson's offer and explains that the matter is being referred to the Gift Unit. ~~As of this date, June 10, this Shaw letter is not among the documents relating to this gift.~~

(re Vice President)

The May 16 Lehmen letter to Shaw and the February 4 Deaver letter to Shaw were included in Shaw's May 28 letter to Deaver. Prior to this Central Files did not possess a copy of the February 4 Deaver letter.

TW0003
[Signature]

The following letters are attached: Presidential to Ray Wilson 5/22/81; and Michael K. Deaver's acknowledgments to Edward S. Shaw 2/4/81 and 6/9/81.

June 10, 1981

Dear Mr. Wilson:

I was happy to receive your Lifecycle and just wanted you to know how grateful I am for your generosity. You can be sure that it will be as well used as it is appreciated.

With best wishes,

Sincerely,

RONALD REAGAN A

THE WHITE HOUSE
WASHINGTON

June 9, 1981

Dear Ed:

It's good to hear from you again. We were all delighted with Mr. Wilson's Lifecycle. You can be sure that it is being put to good use.

I am more than happy to enclose the photographs you mentioned in your letter.

Once again, many thanks to you and to Ray Wilson.

Sincerely,

MICHAEL K. DEEVER
Assistant to the President
Deputy Chief of Staff

*Has Thank
you been
sent?*

Dear Mike:

Hope all is well in D.C. The White House has taken delivery two weeks ago and is in the gym--the Lifecycles should be a nice addition!

Could you do me a favor and have the president send an autographed picture to Ray Wilson (Lifecycle donator). A mention of the Lifecycle on the photo would be nice or a small note to that effect mentioning the Lifecycle.

Sorry to bother you with minor things like this, but Wilson is a friend and a big supporter!

Please send photo and note c/o my office: P.O. Box 35149 Los Angeles, CA 90035.

Thanks again.

Harmest Regards,

Edward S. Shaw

PERSONAL

Dear Mr. Wilson:

Thank you very much for the "Lifecycle Aerobic Trainers" that you sent to me. It was both thoughtful and generous of you to provide your conditioning machines for our gym, and I am deeply grateful for the special concern that prompted your gifts. You can be sure they will be put to good use.

With my best wishes,

Sincerely,

RONALD REAGAN A

OFFICE OF THE SECRETARY
WASHINGTON, D. C. 20350

16 May 1981

Mr. Edward Shaw
Edward Shaw Productions
9465 Wilshire Boulevard
Beverly Hills, California 90212

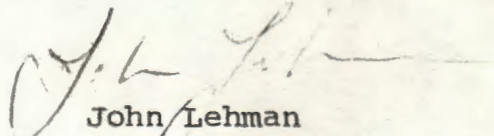

Dear Mr. Shaw:

This is in response to your letter containing Mr. Ray Wilson's generous offer to donate a "Lifecycle" exercise machine for the use of the Vice President and his staff. The Secretary of the Navy is authorized to accept gifts for furnishing and making improvements to the temporary official residence of the Vice President at the Naval Observatory.

On behalf of the United States, and in accordance with Public Law 93-346 as amended, I am pleased to accept Mr. Wilson's generous offer. Acceptance of this offer by the United States does not, of course, constitute an official endorsement or approval of the "Lifecycle."

The exercise machine will be a useful addition to the temporary official residence of the Vice President. Please convey my personal thanks and appreciation to Mr. Wilson for his thoughtful gift.

Sincerely,

John Lehman
Secretary of the Navy

Mr. Michael Deaver
The White House
Washington, D.C.

Dear Mike:

Once again, congratulations on our shared victory.

I have a client/friend, Ray Wilson, who is one of the world's foremost authorities on physical fitness and health. He is the founder of the European Health Spas, Jack Lalanne Health Spas, Family Fitness Centers, and more. Currently President of the newest chain, Family Fitness, he heads up facilities both in the United States and Canada.

Mr. Wilson will, free of charge, be a consultant on any new health-exercise set-up President Reagan is contemplating. Also, Mr. Wilson will donate two "Lifecycles" to the White House. The Lifecycle is a space age, stationary cardiovascular exerciser which is being used in all the best health facilities throughout the U.S. and Canada. These machines would most definitely be approved by the Surgeon General. Each machine retails for \$3,000, and would be a fine addition to any health facility.

I hope you will agree that this would benefit the President and others who would be using the fitness equipment, and pass it along to whomever would be in charge of following up.

Warmest regards,

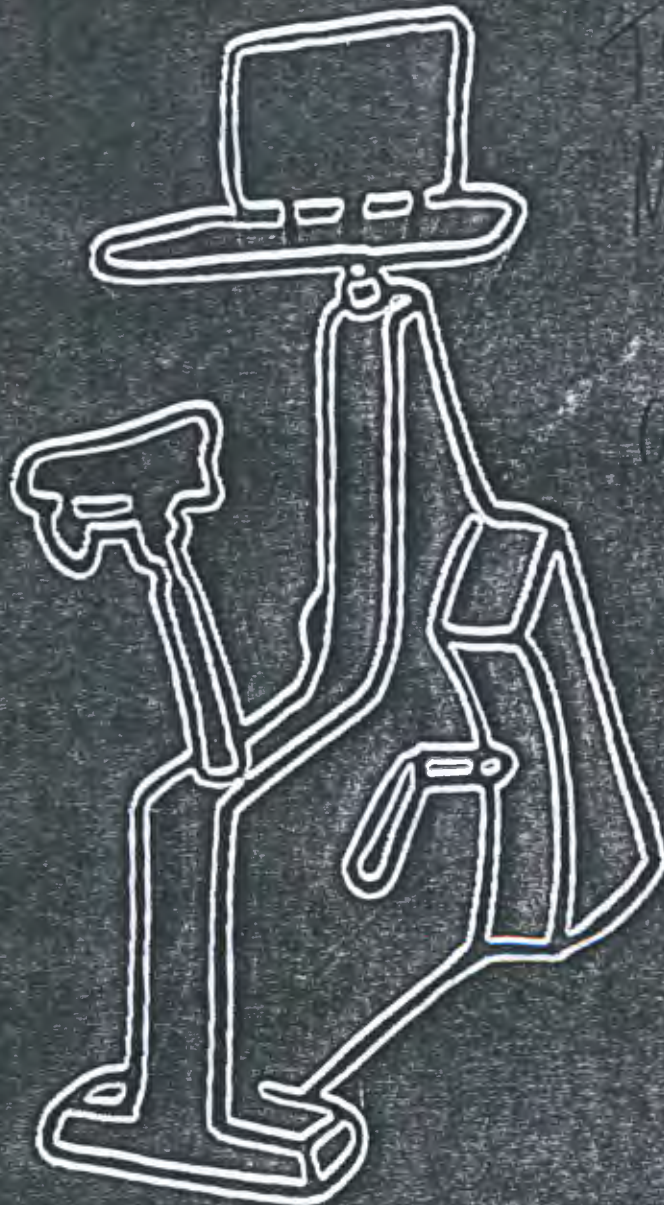

EDWARD S. SHAW

A NEW DIMENSION IN CARDIO

LIFECYCLE is an electronically programmed bicycle which provides a scientific method for improving body

endurance and physical fitness. LIFE-CYCLE is also designed to improve cardiorespiratory fitness. It can be programmed to an individual's specific weight, age, heart rate, and level of condition. These many features make LIFECYCLE an excellent conditioning tool.

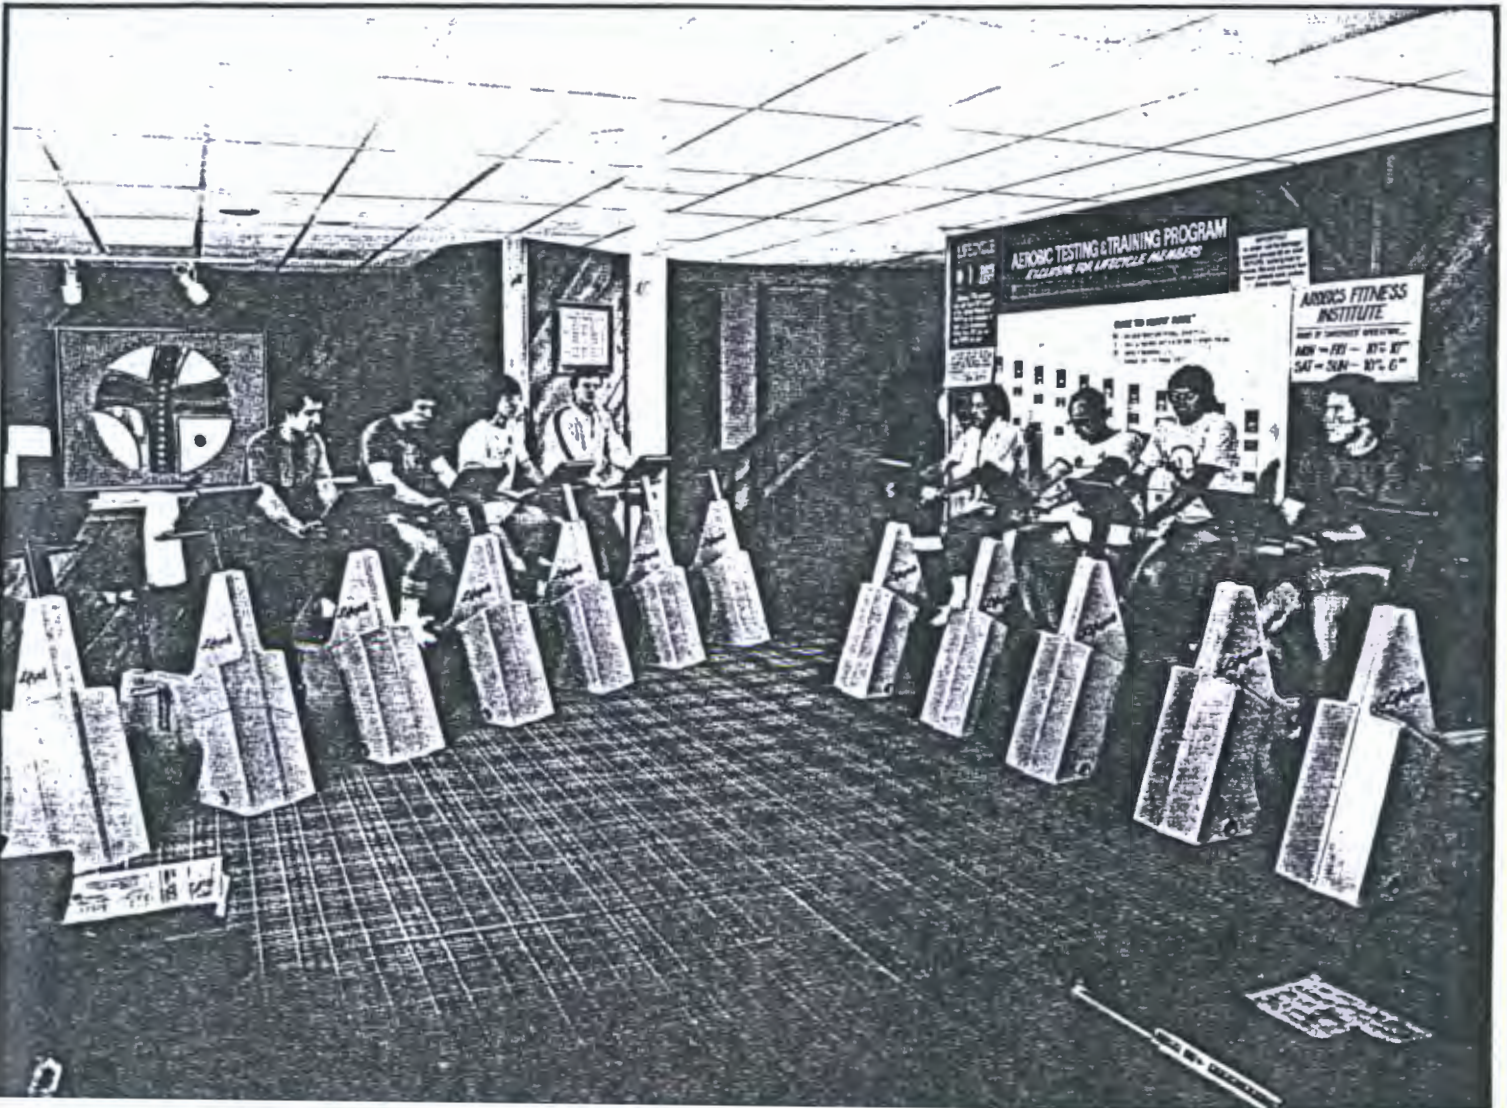

FOR THE CLUB OWNER

LIFECYCLE is a separate exercise program that may be sold in addition to regular club membership. It has proven to be a profitable supplement to clubs in Canada. Recently, the LIFE-CYCLE program has been successfully introduced in clubs throughout Southern California. Data supplied by the Aerobics Fitness Institute are avail-

able showing the extent of profits made by clubs using the LIFECYCLE. We have a complete leasing package that will minimize the initial cost and spread out the payments.

AEROBICS FITNESS INSTITUTE, INC.

Aerobic Fitness Institute provides a valuable service to the club owner. Many Family Fitness Centers and Southern California Nautilus presently have LIFECYCLE programs administered by Aerobics Fitness Institute. Aerobics Fitness Institute can provide personnel and/or train existing staff in the operation and maintenance of the LIFECYCLE program.

VASCULAR AND PHYSICAL CONDITIONING

AEROBIC TESTING & TRAINING PROGRAM
EXCLUSIVE FOR LIFECYCLE MEMBERS

GUIDE TO HEART RATE*

IMPORTANT:
In order not to damage pedals please sit on seat BEFORE putting feet on pedals. Do not remove feet from pedals until pedals have stopped.

I AM NOW RECEIVING THE NEW...

11:20

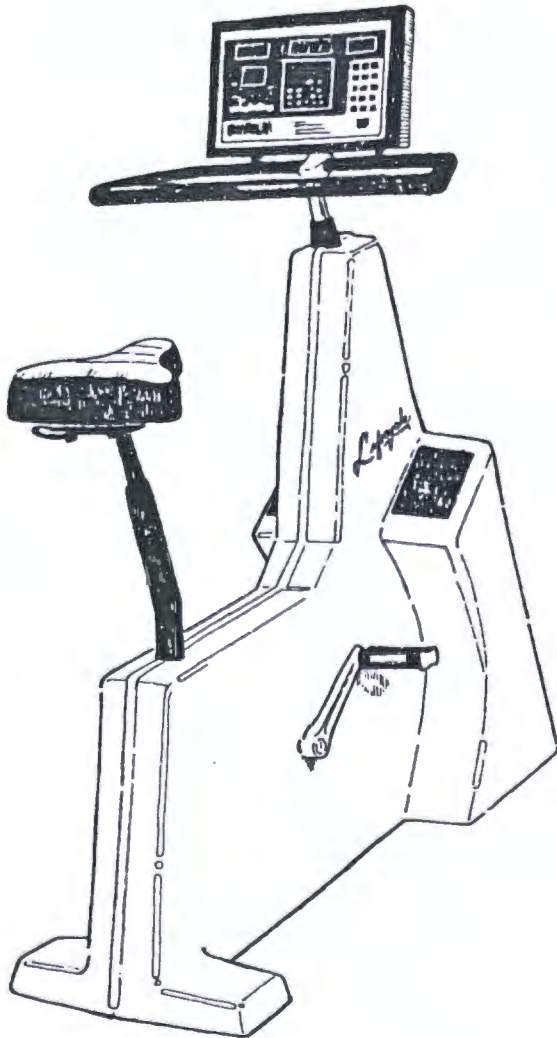

KAY WILSON

The control console is the most striking and unique feature of the LIFECYCLE. It provides a continuous visual display of calories consumed per hour, pedal speed, elapsed time, and current exercise level. At the same time, it allows access to the built-in Maximal Oxygen Uptake Calculator, designed exclusively for the LIFECYCLE, which enables the individual to measure his or her personal level of fitness.

The LIFECYCLE program is based on the principal of "Interval Training with Progressive Overload." During the 12-minute program, the work load against which you are pedaling is periodically changed through an on-board computer which increases pedal resistance. This means you pedal through a warm-up period, a test period, then through a series of 4 hills, each one progressively more difficult. At the end, a warm-down period allows for gradual relaxation.

The current hill level and upcoming hills and valleys are continually displayed to let an individual know exactly where he or she is during the program. This is a unique feature of the LIFECYCLE as it motivates a person to complete the 12-minute program.

- The 20-minute Random program is ideal for the well conditioned athlete. It takes the individual through a series of strenuous exercises designed to maintain peak condition. These exercises simulate a long ride through hilly terrain. The program will vary with each use as the computer is pre-programmed to select one of a million different combinations. Pedal resistance changes during the exercise allowing a person to go from easy to more difficult climbs. This program sets the LIFECYCLE apart from all other exercise bikes. It enables a person in top physical shape to be continually challenged during a workout!
- The standard 12-minute program is mainly used as a daily cardiovascular workout. It consists of a warm-up period, a testing period (utilizing the M.O.U. score to gauge relative fitness. This number indicates the amount of oxygen available to body tissue during a workout).
- The LIFECYCLE has additional programs of 1-6 minutes which may be used: 1.) As a warm-up prior to other exercises, or; 2.) as a beginning program for those individuals whose present physical condition prevents them from completing the 12-minute program.
- The LIFECYCLE also has 10 manually programmed exercise levels with level one being the easiest and level ten, the hardest. This allows the individual to begin his or her program with a degree of difficulty comparable to their present fitness level.

FEATURES:

- REMOVABLE SOLID STATE CONTROL PANEL FOR EASY MAINTENANCE
- 1 YEAR MECHANICAL, 180 DAY ELECTRONIC WARRANTY
- NO EXTERNAL POWER SOURCE REQUIRED
- COMPLETE OPERATION AND MAINTENANCE MANUALS PROVIDED
- FULL RANGE ADJUSTABLE SEAT ACCOMMODATES ALL HEIGHTS
- BICYCLE-TYPE FREEWHEEL GEAR FOR ADDED SAFETY
- DURABLE FIBERGLASS OUTER HOUSING
- ALL METAL PARTS COATED WITH POLYURETHANE PAINT

Lifecycle

*A New Dimension In
Cardiovascular Conditioning . . .*

Lifecycle

The LIFECYCLE is an electronically programmed stationary bicycle which provides a scientific method for building body endurance and physical fitness. It stresses self-motivation and is designed to sustain your own "Life-cycle" in vigorous health by introducing the 12-minute ride to physical fitness.

The LIFECYCLE program is based upon the principle of "interval training with progressive overload." During the program the workload against which you are pedaling is periodically changed through our on board computer which automatically increases and decreases pedal resistance to simulate riding up and down imaginary hills. The computer memory contains several exercise program selections which vary the duration, number and intensity of those hills.

The four basic modes of operation are:

- * The 20-minute Random Program which is ideal for the well conditioned athlete. It takes the individual through a series of strenuous exercises designed to maintain peak condition. These exercises simulate a long ride through hilly terrain. The program will vary with each use as the computer is preprogrammed to select one of a million different combinations. Pedal resistance changes during the exercise allowing a person to go from easy to more difficult climbs. This program sets the LIFECYCLE apart from all other exercise bikes. It enables a person in top physical shape to be continually challenged during a workout.
- * The standard 12-minute program which is mainly used as a daily cardiovascular workout. It consists of a warm-up period, a testing period, (utilizing the MOU score to gauge relative fitness). This number indicates the amount of oxygen available to body tissue during a workout.

- * The LIFECYCLE has additional programs of 1-6 minutes which may be used 1) as a warm-up prior to other exercises, or 2) as a beginning program for those individuals whose present condition prevents them from completing the 12-minute program.
- * The LIFECYCLE also has 10 manually programmed exercise levels with level 1 being the easiest and level 10, the hardest. This allows the individual to begin his or her program with a degree of difficulty comparable to their present fitness level.

These variations to the program are what make the LIFECYCLE a unique physical conditioning device. Starting with the beginning or basic programs, the individual can improve his level of fitness at his own rate while constantly being challenged to surpass that level.

For the well conditioned athletes, the advanced programs offer more difficult modes which can enable them to maintain their peak level of condition and even surpass that level in training for marathon events.

With today's increasing concern for improving cardiac fitness, the LIFECYCLE program is a perfect complement to any fitness facility.

The LIFECYCLE is an extremely rugged piece of equipment and is designed to withstand heavy use for many years. During its 2-year research and development phase, prototype LIFECYCLES were placed in high volume clubs and fitness centers operating as long as 18 hours per day. The combination of this testing and the use of the highest quality components available have resulted in the present LIFECYCLE — A New Dimension in Cardiovascular and Physical Conditioning.
